Minutes – 28/02 – Week 3

Announcements – Nazar left the team.
Week 2 Reflection – *Feedback for meeting, CoC, Backlog received
Week 3 Plan – *Finalise Backlog based on feedback/ideas.
            *Do git assignment
What are epics: *Epics are ~~features that~~ features that
            are made up of user stories.
            *Keep what is in the backlog and
            what we will do consistent, avoid
            unnecessary features.
            *Epics can be different in length

Git assignment: *Help each other

Start working   : *Meet on Thursday
on the project
            - Get general picture of project
            - Split tasks

~~Feedback f~~
Info from TA : *Show a demo every week.
            *Make commits at latest on Mondays.

Work on backlog; *Make epics
            *Ditch non-functional requirements.

Discussion on git assignment:
      *Everyone should finish git assig. before
      Thursday so that we can check each
      other and start actually the project.

→Thursday meeting at 6.
